EXTRUSION TOOLS AND SYSTEMS FOR THE PRODUCTION OF POLYMER FOAMS

The development and manufacture of extrusion tools and systems for the foam industry are INEXCO's core competences.

As specialists in these manufacturing processes, we are at your side right from the start.

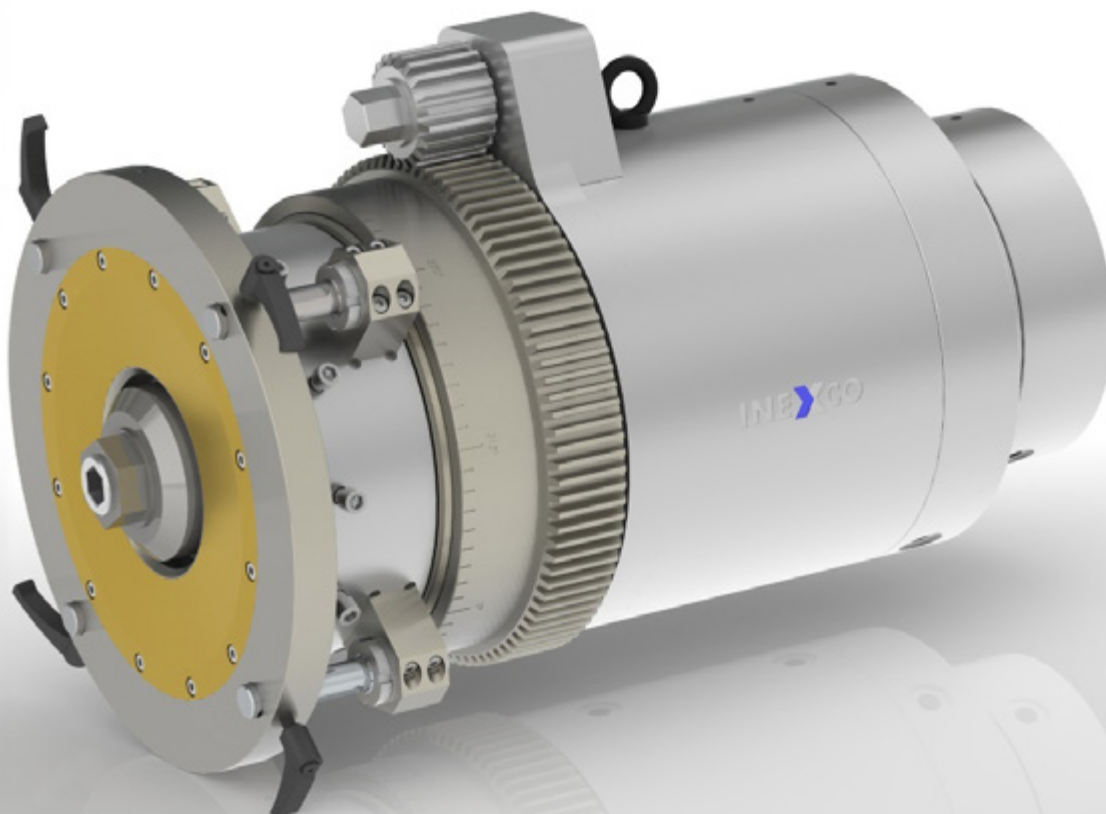

Customer focus, quality and cost-effectiveness are at the center of our thoughts and actions.

In addition to our innovative pipe, film and sheet extrusion dies for common polymer foams, we also offer you a wide range of standard extrusion tools for XPE profiles.

We also focus on customized developments for other industrial applications.

Get in touch with us! We will be happy to advise you on your individual requirements.

Benefit from 35 years of experience and our innovative solutions.
